SECURE HIGH-SPEED BROADBAND

Stay connected to your tools at all times, quickly access your data and business applications, thanks to broadband Internet access

FIXED TELEPHONY OVER IP

Telephone lines accessible via softphone to remain reachable via the Internet on your computer or with dedicated devices

SECURE WIFI & GUEST WIFI

Your employees and visitors can connect to WiFi with optimal security. A fully managed and secure next-generation network, offering a high-performance connection. You have full wireless coverage and easy access to connect multiple devices simultaneously and share your connection

TELEPHONY WITH MICROSOFT TEAMS

Work smarter with Microsoft Teams, which brings together calling, instant messaging, meetings and collaboration

CUSTOMIZED REPORTS

You can get customized security reports and overviews of your Internet usage

ADVANCED SECURITY

A secure connection via a number of tools (IDS, IPS, Anti-virus, Anti-malware, Content Filter, DNS Protector), to protect your company's network against the most common cyber threats

REMOTE CONNECTION TOOL (VPN)

A VPN to create a secure connection to your local network

4G BACK UP

A 4G mobile back up to provide high-speed connectivity in the event of an Internet outage
